Brow lamination aftercare instructions

Caring for your laminated brows

These are your studio's care steps. If your artist told you something different, follow your artist.

- Keep your brows dry for the first 24 hours: no steam, sauna, swimming or washing your face over them. The studio sets this time.
- Skip brow makeup, exfoliants and retinol on your brows for the first 48 hours.
- Brush your brows into place each morning with a clean spoolie.
- Use the conditioning product your artist gave you; laminated hair can feel dry.
- Don't sleep face down the first night.
- Book your next lamination 6 to 8 weeks after this one. Laminating too often can dry out the hair.

If something looks or feels wrong, contact the studio. For a medical concern, contact your doctor.
