Lash extension aftercare instructions

Caring for your lash extensions

These are your studio's care steps. If your artist told you something different, follow your artist.

- Keep your lashes dry for the first 24 hours: no steam, sauna, swimming or hot showers on your face. The studio sets this time.
- Brush them gently each day with a clean spoolie.
- Wash them with a lash-safe cleanser. Keep oil-based makeup removers and creams away from your eyes.
- Don't pull, pick or rub them, and don't use a lash curler on extensions.
- Skip mascara on the extensions unless your artist says it's safe for them.
- Book a fill 2 to 3 weeks after this appointment to keep the set full.

If something looks or feels wrong, contact the studio. For a medical concern, contact your doctor.
