# Lash lift aftercare instructions

## Caring for your lash lift

These are your studio's care steps. If your artist told you something different, follow your artist.

- Keep your lashes dry for the first 24 hours: no steam, sauna, swimming or face washing over your eyes. The studio sets this time.
- Skip mascara, eye makeup and lash curlers for the first 24 hours.
- Don't rub your eyes or sleep face down the first night.
- Keep oil-based removers and creams away from your lashes while the lift sets.
- Book your next lift 6 to 8 weeks after this one, when your lashes have grown out. Lifting too often can dry them out.

If something looks or feels wrong, contact the studio. For a medical concern, contact your doctor.
