Studio name _____

Brow tint and henna consent

This takes about three minutes. Your answers go to your studio, and your artist reads them before your appointment. Please come with no makeup on your brows.

About you

Your name

Your appointment

What would you like?

☐ Brow tint ☐ Henna brows ☐ Tint with shaping (wax or tweezing) ☐ Not sure yet, I'd like advice

Health questions

These questions are the studio's own policy. They help your artist plan a safe appointment. They aren't medical advice: if you have a question about your health or your medicines, ask your doctor.

Have you ever reacted to a lash lift, perm or relaxer, hair dye, lash or brow tint, henna or "black henna"?

☐ Yes ☐ No

What happened?

Do you have a skin condition on or near your brows, such as eczema, psoriasis, rosacea, dermatitis or an open cut or rash?

☐ Yes ☐ No

What is it?

Have you used retinol, a prescription retinoid (such as tretinoin, adapalene or tazarotene) or an exfoliating acid on your brows or forehead in the last 7 days?

☐ Yes ☐ No

Which product, and when did you last use it?

Have you taken isotretinoin (Accutane or a similar acne medicine) in the last 6 months?

☐ Yes ☐ No

When did you stop?

Have you had a lift, lamination, tint or perm on your brows in the last 6 weeks?

☐ Yes ☐ No

What, and when?

Have you waxed, threaded or tweezed your brows in the last week?

☐ Yes ☐ No

Have you had neuromodulator injections (like Botox) or fillers in the area in the last 14 days?

☐ Yes ☐ No

Is the area sunburned, or have you tanned it (sun, tanning bed or self-tanner) in the last few days?

☐ Yes ☐ No

Are your eyes sensitive to fumes or strong smells, or do you have an eye condition?

☐ Yes ☐ No

Tell us a little more.

Do you use a brow growth serum?

☐ Yes ☐ No

Which one?

Are you pregnant or nursing?

☐ Yes ☐ No

Anything else your artist should know about your health?

What you agree to

About lash and brow tint
The FDA warns that permanent eyelash and eyebrow tints and dyes have been known to cause serious eye injuries, including blindness. The FDA allows silver nitrate as a color additive for brows and lashes only in professional-use products, and those products aren't meant for anyone under 16. The studio tells me which tint it uses on my brows. I'll keep my eyes closed while the tint is on and say right away if anything stings or burns.

Initials ☐

If I choose henna
The FDA's color additive rule lets henna be used for coloring hair only, and says it may not be used for coloring the eyebrows or eyelashes or in the area of the eye (21 CFR 73.2190). Brow henna products can also contain other dyes. If I choose henna brows, I'm choosing them knowing this.

Initials ☐

Color on the skin
Tint and henna can stain the skin around my brows for a few days, and the color fades over the following weeks. How long it lasts depends on my skin, my skincare and the sun.

Initials ☐

My answers
I answered the health questions truthfully. I'll tell my artist before my appointment if anything changes.

Initials ☐

Stopping
I can ask my artist to stop at any time, and my artist may stop or change the service if my skin reacts.

Deposit policy
Your deposit holds your appointment and comes off your final price. Moving your appointment needs at least 24 hours' notice. A missed appointment without notice keeps the deposit.

Initials ☐

the studio uses your health answers only to do your appointment safely and to keep the records the law requires. They are never used for marketing or sold. They are stored encrypted, and every time someone at the studio opens them it is logged.
