What you agree to

Keeping my eyes closed
Lash adhesive is applied close to my eyes while they're closed. I'll keep them closed until the artist says to open them, and I'll say right away if anything stings or burns.

Risks
Lash extensions can cause eye irritation, redness, swelling or an allergic reaction to the adhesive, sometimes a day or more after the appointment and sometimes after many visits without a problem. If that happens I'll contact the studio, and my doctor for a medical concern.

Initials

My natural lashes
Extensions are attached to my natural lashes and shed with them. Pulling, picking or rubbing them, or removing them myself, can damage my natural lashes. I'll have the studio remove them.

Initials

How long they last
How long extensions last depends on my natural lash cycle, my skin's oils, my aftercare and my sleep habits. Fills keep the set full; the studio sets when a fill becomes a new set.

Initials

My answers
I answered the health questions truthfully. I'll tell my artist before my appointment if anything changes.

Initials

Stopping
I can ask my artist to stop at any time, and my artist may stop or change the service if my skin reacts.

Deposit policy
Your deposit holds your appointment and comes off your final price. Moving your appointment needs at least 24 hours' notice. A missed appointment without notice keeps the deposit.
