Studio name _____

Lash lift and tint consent

This takes about three minutes. Your answers go to your studio, and your artist reads them before your appointment. Please come with no makeup on your eyes.

Your appointment

What would you like?

☐ Lash lift and tint ☐ Lash lift only ☐ Lash tint only

Health questions

These questions are the studio's own policy. They help your artist plan a safe appointment. They aren't medical advice: if you have a question about your health or your medicines, ask your doctor.

Have you ever reacted to a lash lift, perm or relaxer, hair dye, lash or brow tint, henna or "black henna"?

☐ Yes ☐ No

What happened?

Do you wear contact lenses?

☐ Yes ☐ No

Do you have an eye condition such as dry eye, glaucoma, conjunctivitis (pink eye), a stye or blepharitis?

☐ Yes ☐ No

Which one?

Have you had eye or eyelid surgery (including LASIK or cataract surgery) in the last 6 months?

☐ Yes ☐ No

Which surgery, and when?

Are your eyes often watery, itchy or sensitive to fumes or strong smells?

☐ Yes ☐ No

Do you use a lash or brow growth serum?

☐ Yes ☐ No

Which one?

Have you had lash or brow loss, for example from alopecia, thyroid treatment, chemotherapy or pulling at your lashes?

☐ Yes ☐ No

Tell us a little more, only what you're comfortable sharing.

Are you pregnant or nursing?

☐ Yes ☐ No

Have you had a lift, lamination, tint or perm on your lashes in the last 6 weeks?

☐ Yes ☐ No

What, and when?

Do you have lash extensions on now?

☐ Yes ☐ No

Anything else your artist should know about your health?

What you agree to

The lotions

A lash lift uses lifting and setting lotions, which are strong chemicals, close to my eyes. I'll keep my eyes closed until the artist says the lotions are off, and I'll say right away if anything stings or burns.

Initials ☐

Risks

A lash lift can cause irritation, redness, dryness or an allergic reaction, and the lotions can make my lashes dry or brittle, especially if they're treated again too soon. If my eyes or skin react I'll contact the studio, and my doctor for a medical concern.

Initials

Results

How the result looks and how long it lasts depends on my lashes, their growth cycle and my aftercare. The studio sets how soon my lashes can be treated again.

Initials

About lash and brow tint

The FDA warns that permanent eyelash and eyebrow tints and dyes have been known to cause serious eye injuries, including blindness. The FDA allows silver nitrate as a color additive for brows and lashes only in professional-use products, and those products aren't meant for anyone under 16. The studio tells me which tint it uses on my lashes. I'll keep my eyes closed while the tint is on and say right away if anything stings or burns.

Initials

My answers

I answered the health questions truthfully. I'll tell my artist before my appointment if anything changes.

Initials

Stopping

I can ask my artist to stop at any time, and my artist may stop or change the service if my skin reacts.

Deposit policy

Your deposit holds your appointment and comes off your final price. Moving your appointment needs at least 24 hours' notice. A missed appointment without notice keeps the deposit.

Initials

the studio uses your health answers only to do your appointment safely and to keep the records the law requires. They are never used for marketing or sold. They are stored encrypted, and every time someone at the studio opens them it is logged.
