Where, and when was the last session?

Anything else your artist should know about your health?

What you agree to

A student does the work

A student performs my procedure under a trainer's supervision. The result may differ from what an experienced artist would do and may need extra perfecting sessions.

Initials ☐

The trainer's role

The trainer may step in, pause or stop the procedure at any time.

Initials ☐

Class timing

A class appointment takes longer than a normal appointment, and other students may watch.

Initials ☐

Teaching photos and video

Photos and video of my procedure may be used to teach this class.

Initials ☐

Models are adults

I'm 18 or older. The academy only works with adult models.

Initials ☐

Permanence

The procedure is a cosmetic tattoo. It fades over time but doesn't fully go away. Removing it takes several sessions and may leave a mark.

Initials

Risks

Any tattoo carries some risk of infection, allergic reaction, swelling or bruising. Following the care steps lowers the risk. I'll contact the studio about anything unusual, and my doctor about a medical concern.

Initials

About the pigments

The FDA treats tattoo and permanent makeup pigments as cosmetics and hasn't approved any color additive for injection into the skin.

Initials

MRI scans

The FDA lists MRI complications among the possible risks of tattoos and permanent makeup. I'll tell the MRI staff about my permanent makeup before a scan.

Initials

My answers

I answered the health questions truthfully. I'll tell my artist before the appointment if anything changes.

Initials

Alcohol and drugs

I'm not under the influence of alcohol or drugs.

Model fee

Your model fee holds your spot in the class and comes off any perfecting session the academy books for you. Moving your spot needs at least 48 hours' notice.

Initials

the studio uses your health answers only to do your appointment safely and to keep the records the law requires. They are never used for marketing or sold. They are stored encrypted, and every time someone at the studio opens them it is logged.
